

PACKAGING CONSULTANTS INTERNATIONAL

May 2, 2011

Ms. Marce Rose
Production Manager
Visstun Custom Cups
6355 Sunset Corporation Drive
Las Vegas, NV 89120

Dear Ms. Rose,

On April 27, 2011 I spent the better part of the day at your Visstun Custom Cups Las Vegas, Nevada facility for the purposes of conducting a Good Manufacturing Practices and sanitation survey of your facility. As you know Packaging Consultants International (PCI), Syracuse, NY conducts over 150 surveys of both foreign and domestic single serve manufacturing facilities annually and we have been doing so for over 30 years.

Since I have not been to the facility since September 2008, I really did not know what to expect. I am happy to say that the overall sanitary condition was excellent, the highest rating I bestow on manufacturing facilities. In my travels both abroad and domestically rarely do I see a cup forming department maintained in this sanitary condition. The level of organization, the proactive approach to cleaning and the commitment to adhering to the FDA standards even when your facility is not required is truly refreshing. It certainly made my job much easier.

In my experience, this is a facility that just didn't prepare for the survey the day before I arrived, it was apparent to me that that the facility is maintained in this condition every day of the year. This is quite a testament to the commitment to excellence in manufacturing and the Owners, Management Group and Employees of Visstun Custom Cups Las Vegas, Nevada should be commended for their efforts.

Regards,

Patrick A. Frontale
President
